

RELIABLE, FAST AND POWERFUL.  
MODERNISING BACK UP AS A SERVICE.

In today's world of exponential data growth and the developing cyber threat landscape, having an effective Backup solution for your business is crucial.

Understanding the fundamentals and benefits of Backup is critical in reducing the impact of unplanned downtime on your business.

# What is APOLLO?

We are modernising Backup as a service (BaaS). Organisations can now achieve unmatched data management and protection. You can accelerate your organisations agility through automating core backup and recovery capabilities, enabling data mobility, visibility, intelligent orchestration, governance, and security.

APOLLO

## How it works?

BaaS is the process of making an extra copy (or multiple copies) of data, enabling restoration of data Backup if you encounter a cyber-breach, accidental deletion, database corruption, or problem with a software upgrade.

Our solution eliminates challenges faced when using traditional backup solutions. Data is stored safely on our award-winning platform. METCLOUD BaaS also offers many financial advantages over alternative backup solutions, as there are no upfront costs for hardware or maintenance.

# Data protection made easy.

## RELIABLE BACKUP

- ✓ Back up any workload and store backups anywhere on premises or in the cloud with built-in replication at no additional cost.

## BUILT-IN SECURITY

- ✓ Ransomware-proof backups to easily and inexpensively isolate your data and protect against cyberthreats.

## FAST RECOVERY

- ✓ Migrate or recover any workload to AWS, Microsoft Azure or Google Cloud Platform while keeping your backups safe from malicious attacks..

## POWERFUL FILE PROTECTION

- ✓ Protect all your files across your organization – from application items to NAS – and instantly recover exactly whatever you need when you need it.

# Data protection made easy.

## DATA PORTABILITY

- ✓ Migrate or recover any workload to Microsoft Azure or METCLOUD (IaaS) while keeping your backups safe from malicious attacks.

## STORAGE FLEXIBILITY

- ✓ Create fast backups and replicas from snapshots by using hardware from almost any storage solution, without lock-in.

## AWARD WINNING SUPPORT

- ✓ 24/7 technical support with hot fixes and updates without waiting for product releases.

## 24/7 MONITORING AND REPORTING

- ✓ Always stay connected and informed with real-time visibility into your backup, physical and virtual environments.

## Why METCLOUD?

Award winning company for cybersecurity, innovation, and excellence. Our vision is to be the global brand of choice for next generation cybersecure cloud services.

Our services have been architected with security by design. Ransomware, Cloud vulnerabilities, Phishing attacks Social engineering and vulnerability management are the five top global security threats. METCLOUD's portfolio of cyber security and cloud services will ensure that you protect, defend, and mitigate any potential cyber attack irrespective of how it was carried out.
