

DISASTER RECOVERY AS A SERVICE (DRAAS)

DO NOT ALLOW ANY DISASTER TO DISRUPT YOUR BUSINESS.

The value of having a disaster recovery plan is indisputable yet only 20% of UK businesses and charities have a robust disaster recovery plan and test their plan annually.

This is a frightening statistic when the world is facing increased frequency and severity of natural disasters due to climate change and coupled with the exponential rise of cyber-attacks paralysing significant numbers of organisations globally.

The recent UN Climate Change Conference (COP26) dramatically amplified the issues related to climate change with predictions of increased flooding, increased frequency and intensity of forest fires, more powerful and destructive storms and therefore disaster recovery planning has never been more essential.

DRAAS WITH METCLOUD

METCLOUD can help your business to keep going even during major IT outages. Our DRaaS offers ease of deployment, cost effectiveness, and dependability. Deploy replication, failover, and recovery processes to keep your applications running during planned and unplanned outages.

METCLOUD has created a robust disaster recovery-as-a-service harnessing enterprise grade IT systems & software located within enterprise grade UK data centres.

In addition to our own facilities, we partner with Microsoft to deliver Azure Site Recovery. Microsoft has also been recognised as a leader in DRaaS based on completeness of vision and ability to execute by Gartner in the 2019 Magic Quadrant for Disaster Recovery as a Service.

As your business embraces a multi-cloud strategy, you need to make sure that DRaaS is a part of your plan. METCLOUD's DRaaS is built on market leading technologies providing your business with a complete DR solution. Our solution caters for all the requirements of DR, whilst eliminating the need for costly hardware and maintenance. Using METCLOUD's services provides reassurance that in the event of a disaster, your business continuity won't be disrupted.

- Increased Availability
- Cost Reduction
- Compliance & Governance
- Easier Testing
- Disaster Survival
- Resilience

Why METCLOUD?

Award winning company for cybersecurity, innovation, and excellence. Our vision is to be the global brand of choice for next generation cybersecure cloud services.

Our services have been architected with security by design. Ransomware, Cloud vulnerabilities, Phishing attacks Social engineering and vulnerability management are the five top global security threats. METCLOUD's portfolio of cyber security and cloud services will ensure that you protect, defend, and mitigate any potential cyber attack irrespective of how it was carried out.
