IaaS market size was valued at **$39 billion** in 2019 and is projected to reach **$202 billion** by 2027, growing at a CAGR of 23.2% from 2020 to 2027.

Factors that are driving growth of the IaaS market are digital transformation, flexible and scalable compute and storage, modern workplaces that demand access to data anywhere and anytime.

WHAT IS IaaS?

IaaS offers a comprehensive solution to protect your cloud workloads, wherever they reside. Migrating your organisation's infrastructure to an IaaS solution helps you reduce maintenance of on-premises data centres, reduce expenses on hardware costs and gain real-time business insights.

IaaS solutions give you the flexibility to scale your IT resources up and down with demand. Moreover, it helps you quickly provision new applications and increase the reliability of your underlying infrastructure.

WHY IaaS WITH METCLOUD?

The METCLOUD's Award Winning IaaS platform has been architected with security by design and enterprise grade compute and storage providing exceptional levels of reliability and performance.

BENEFITS

REDUCES CAPITAL EXPENDITURES AND OPTIMISES COSTS

IaaS eliminates the cost of configuring and managing a physical data centre, which makes it a cost-effective choice for migrating to the cloud.

INCREASES SCALE AND PERFORMANCE OF IT WORKLOADS

IaaS lets you scale and accommodate spikes in resource demand. That way, you can deliver IT resources to employees from anywhere in the world faster and enhance application performance.

INCREASES STABILITY, RELIABILITY AND SUPPORTABILITY

With IaaS, there is no need for you to maintain and upgrade software and hardware or troubleshoot equipment problems. METCLOUD will manage your IT Infrastructure which includes storage, server and networking ensuring that nothing will disrupt your business.
